About Teufel Audio

Teufel is one of Germany's largest manufacturers of audio products. Teufel's product range includes Hi-Fi, home cinema and multimedia systems, headphones, Bluetooth and Wi-Fi multi-room speakers featuring the company's own Raumfeld technology. The company first began developing speaker kits in Berlin in 1980 and is now the no. 1 manufacturer of audio products in Europe.

Since its foundation, the company has been setting trends in areas such as stereo and surround sound, portable speakers and multi-room streaming. At Teufel, excellent sound is always our top priority - and our numerous awards from consumers and trade press are proof of its success.
